

To Head of the Neurology Clinic
and Health Care Professionals treating patients with epilepsy,

Please register now and join us for a programme of discussion on a number of topics vital to improving understanding of the pathophysiology of epilepsy and its impact on patient quality of life.

This year, our expert faculty will be leading workshops, presentations and discussions with attendees on:

- Genetics and epilepsy
- Epilepsy and depression
- The importance of patient-reported outcomes
- Effective implementation of a multidisciplinary team

The meeting will be chaired by Dr Rhys Thomas (Newcastle Hospitals NHS Foundation Trust) and the faculty will include Professor Christoph Beier (Odense University Denmark/University of Southern Denmark), Dr Mario F. P. Juruena (King's College London), Professor Rikke Steensbjerre Möller (Filadelfia/University of Southern Denmark), Dr Marte Syversen (Vestre Viken Hospital Trust), and Professor Matthew Walker (University College London).

Scan here to be taken to the registration website!
